

Environmental Policy

We have established this environmental policy to be consistent with the purpose and context of our business. It provides a framework for the setting and review of environmental objectives.

We are committed to:

Protecting the environment, the prevention of pollution and continual improvement of our environmental management system.

Sustainable resource use, climate change mitigation, protection of biodiversity and ecosystems.

Conform to applicable legal, regulatory and compliance obligations and to be a good neighbour.

We have produced environmental objectives which relate to this policy and they can be found in document ER04 Environmental Objectives.

This policy is communicated to all interested parties as well as being made available to the wider community through publication on our Website and company noticeboard.
